

Pocket Planner Sprint 6 Review

23 MARCH 2026 / 11:00 AM / SMB 102

Attendees

Ji-Jian Chin(Staff),

Jordan Combs(Minute Taker), Robert-Ionut Nedelcu, Jacob Woodhouse, Dimitar Kostadinov

Key Discussion Points

Sprint 6 Evaluation

1. Described the major features and changes to Pocket Planner in sprint 6 including: a manipulation panel with buttons for rotate, flip, and confirming placement, ghost shape appearance with automatic colour updates based on validity, implementation of core game state synchronisation logic, broadcasting of placement actions and dice rolls to the Firebase Database, touch-based input for shape dragging, and locking for starting position selection in multiplayer.

Mobile Game Demonstration

2. Demoed the current working mobile build of the game on android, navigating from the main menu to the create game screen and playing a full singleplayer game showcasing the features that were currently implemented.

Decisions

- The UAT was arranged with the other group of our client, and a date was formalised for the 27th April.

Action Items

1. Fully integrate the multiplayer systems into the gameplay loop and polish the game's lifecycle management for multiplayer lobbies.
2. Implement auto-end detection functionality for both modes and improve the end-game experience with a player scoreboard for multiplayer.

Next Meeting

Date: Monday, 27th April, 2026 Time: TBD

Agenda: Perform the UAT and demonstrate the mobile build with working multiplayer functionality to the client.
